"Is a Career In HVAC for Me?"

We are pleased to announce our first ever introduction to a "Day in the Life of a HVAC Professional," a one day workshop aimed at 16-20 year olds in our community.

If you're interested in exploring a career in the heating and air industry, this gathering will give you an overview of all the career opportunities from installations to service.

Get an understanding of basic components, thermostats, safety protocols and more. You'll also be able to explore a fully equipped service van and the tools we use to deliver comfort to families and businesses.

Spend a fun morning with Matthew Holtkamp, Founder of Holtkamp Heating & Air, and see if your talents line up with what it takes to be an HVAC technician.

HVAC Career Day

Saturday, March 27th

9AM-12PM

Holtkamp Heating & Air Office, Suwanee

Donuts for Breakfast & Pizza for Lunch
